Dan Mace, founder of Joe (JOE) and the chief creative officer at Beast Philanthropy, an American non-profit organisation owned MrBeast and one of Joe's clients, and Darren Margolias, executive director at Beast Philanthropy, accepted the awards at the ceremony in Los Angeles.

## We Saved an Orphanage

Created to showcase the work done by MrBeast, the first video in the series about the Baphumelele orphanage aired on 11 January 2023 – *We Saved an Orphanage* and helped raise R10 million to rebuild the children's home in Khayelitsha, saving the children from asbestos poisoning and renovating all 13 houses at the orphanage.

This video received more than 17 million views and as it continually grows so do the donations to the upkeep of the orphanage.

## We Adopted an Orphanage

Seven months later, after changing the lives of the children at the orphanage and its founder, Mama Rosie, the team released a second video – *We Adopted an Orphanage* – to continue raising awareness to ensure the children's home remained successful and sustainable.
