

Enhance your wellbeing with DR+SWISS

Issued by [OnPoint PR](#)

28 Nov 2019

SA's most premium range of CBD Oil products formulated from harvesting Europe's finest hemp crops combined with the latest in Swiss extraction technology to ensure the utmost purity.

While we might define the concept of wellness differently, it is something which we all desire. Sleeping well, enjoying better pain control and being able to maintain an optimal state of mind not only makes us healthier, but also sets us on a path to wellness.

Created with the purpose of helping you to achieve these very goals through a simple and natural solution is at the heart of **DR+SWISS**. This fresh, aromatic THC-free high-quality CBD oil is now available for the first time in South Africa.

A premium International Organisation for Standardization (ISO) compliant Swiss made formulation, **DR+SWISS** is the epitome of seed to shelf traceability. It is sourced from selectively harvested crops in Holland, Spain, Austria, Italy and Switzerland while employing the latest in Swiss supercritical extraction technology to ensure utmost purity.

"CBD is the most exciting compound to happen to wellness. Whilst dealing with my father's cancer and illness, I heard about CBD and its amazing properties. The more we researched CBD, the more we realised its far reaching benefits ranging not only for pain relief and anti-inflammatory properties but also assisting in general health and maintaining a

*state of homeostasis. There was not a brand that we felt comfortable with locally that we could trust, as we couldn't ascertain their efficacy, origin and credibility. In developing **DR+SWISS**, we turned to the largest medical cannabis and CBD producer in Europe with more than 15 years of experience to develop a premium range of CBD oil products of exceptional quality and purity. We are proud that our depth of product insight and understanding is unparalleled in the South African market. Our mission is to become a pro-active wellness company as opposed to a reactive one. CBD taken proactively can assist in your overall state of wellness" said co-founder **Lee-Ann Liebenberg**.*

DR+SWISS is the only CBD brand in SA that can proudly say it produces the purest and broadest range that caters for the whole family, starting with a 3% 300mg to the highest concentration available in SA, 30% 3000mg

According to the Global Wellness Institute (GWI), recent research findings show that genetics may account for as little as 10-15% of our health outcomes – making it increasingly clear that external and environmental factors hold a greater role in determining our wellbeing.

Integrating a holistic health paradigm into our way of life – from how we deal with stress and respond to the first signs of illness to how we eat and live our lives – is therefore vital.

DR+SWISS products, having undergone rigorous lab testing by industry leader, Fundación CANNA, subscribe to the highest levels of purity and active ingredient accuracy. The CBD oil has been crafted, considered and designed to seamlessly complement your daily health routine, ensuring your body remains in a harmonious state of wellbeing.

DR+SWISS is exclusively available online at www.drswiss.co.za from R599.00

About DR+SWISS

DR+SWISS is a premium CBD oil producer committed to producing the highest quality Swiss-made CBD products. Our production is based in Switzerland to access the world's highest pharmaceutical production standards, extraction technology, and expertise. Home to two of the world's largest pharmaceutical companies and with pharmaceuticals accounting for over 38% of its exports, there is no better place to produce CBD oil. Our process is seed to shelf, starting with access to one of the world's largest seed banks and Europe's largest medical cannabis and CBD producers. Every drop of DR+SWISS CBD oil starts with the finest grade, organically grown (pesticide and herbicide-free) crops, sourced from the EU's leading grower, with operations in Holland, Spain, Austria, Italy, and Switzerland. To ensure utmost purity, we press only the flowers and then use supercritical CO2 extraction to create full-spectrum CBD oil. All DR+SWISS products are subjected to rigorous lab testing by industry leader, Fundación CANNA and are also fully compliant with ISO standards.
