

A fruitful partnership between Harmony Gold Mining Company Limited and The Standard Bank Top Women Conference

Issued by <u>Topco Media</u> 15 Oct 2021

Topco Media is proud to announce that they partnered with Harmony Gold Mining Company Limited for the 18th annual Standard Bank Top Women Conference, which took place on 6 and 7 October 2021. Harmony Gold is a gold and copper mining and exploration company that operates in South Africa and Papua New Guinea, one of the world's premier new gold-copper regions. With 71 years in the industry, Harmony is an experienced emerging market gold miner and the largest gold producer in South Africa, employing about 47,000 employees and contractors in South Africa, and about 2870 in Papua New Guinea.

Their business activities cover the entire gold mining value chain - from exploring for prospects, conducting feasibility studies and developing, buying and operating mines, through to closing and rehabilitating mines at the end of their productive lives.

An opportunity for collaboration

The Standard Bank Top Women Conference brings together a trusted network of over 10,000 women entrepreneurs and leaders who are embracing innovative gender empowerment strategies. The two-day virtual event offered public and private sectors tailored solutions, allowing delegates to engage in 'brave conversations' and learn from industry pioneers.

As a silver sponsor, Harmony Gold hosted a breakaway session on gender diversity and inclusion. The speakers included Dr. Tumi Legobye, health executive at Harmony Gold; Besky Maluleka, chief audit executive at Harmony Gold; and Shela Mohatla, Group Company Secretary at Harmony Gold. The session was moderated by Zanele Morrison and together they emphasised the importance of us needing to be trailblazers to help further gender diversity and inclusion.

Top women together

Topco Media is pleased to have partnered with Harmony Gold for this year's Standard Bank Top Women Virtual conference and applauds the work that they do where in line with their purpose, they strive to ensure that, on balance, their

contribution is positive and that, once mining ceases, their legacy is enduring.
