

VML Worldwide Foundation Day

Native VML participated in the recent one-day shutdown of more than two dozen VML offices worldwide on 14 September 2017. During its annual foundation day, Native VML offices support non-profit organisations.

The theme for the day was 'all-in', which centred around the company's employees uniting for a day of giving back. Local Native VML employees in Cape Town and Johannesburg partnered with eight organisations for the day. Some of the support included interacting with children at the Wings of Inspiration Care Centre, planting 20 indigenous trees at a high school, and picking up litter at Muizenberg beach.
