A powerful new consumer-centric business tool has officially launched. Enter [Boomerang](#) for WhatsApp API.

Created to reduce the cost and time needed to launch a **WhatsApp bot**, this **no-code flow builder** is the first of its kind in South Africa, and brings to market a truly user-friendly platform that makes it easy for everyone to access previously hard to reach WhatsApp bot technology. And the cherry on top? You can build it yourself in under 30 minutes, without a developer.

Over **100 WhatsApp bots have been built** on Boomerang by some of the biggest brands in South Africa; including V&A Waterfront and Cash Crusaders.

[Boomerang](#) is aimed at corporates and big brands who are looking for mobile solutions to help them better reach their audiences, while at the same time ensuring an engaging and amazing customer experience.

The platform seamlessly powers lines that are registered with Clickatell, Messenger People and many other official WhatsApp partners.

Boomerang pricing starts from **around R6,800 per month**, and this includes:

- The flow builder
- Five hours of FREE training
- One linked line
- And access to premium features

Extra support costs start at R3,120 per month, and both costs scale depending on your build and support requirements.

There is a lot to get excited about with this progressive fast-to-market product. With its comprehensive set of features including a drag and drop interface, rich media, advanced integrations, valuable insights and templates - marketers and businesses can easily leverage Boomerang to create unique service opportunities.
