

Ghana gets iBurst

South African iBurst users are now able to roam in Ghana and vice versa, since the recent launch by Infinite Stream Ghana in collaboration with BusyInternet. iBurst will initially only be available in the capital city of Accra (Osu, Airport area, Kaneshie, Ring Road Central, Accra Central). The new service consists of three contract packages and a prepaid version, where subscribers pay an hourly rate with no data cap. See www.iburstghana.com for more.
